SUPERVISORS HOLD REGULAR MEETING

The Board of Supervisors met in regular session Monday, October 5th, there being present William H. Brown presiding, D. E. Blackburn, Jas. T. Casey, Joseph M. Francis and John MacBain.

County Treasurer Chamberlain reported having received from the Public Administrator $7.96 in cash found on deceased persons, and for the sale of the effects of deceased persons, $7.65. The expense of the sale was $5, leaving a balance of $10.60 which was placed in the proper fund.

Coroner Plymire reported having secured from the body of an unknown deceased person $86 which was turned over to the treasurer.

A communication was received from the State Board of Control, giving notice that the law provides that after August 10th no child whose parent or parents have not resided in the State at least three years prior to the date of application for aid, or whose parent or parents have not become citizens of this State shall be entitled to State aid under the statutes of 1913.

A comunication was received from the State Board of Equalization notifying the board that the annual convention of county assessors would be held at Jackson, Amador county, November 3d. It was requested that Assessor Hayward be delegated to attend the convention. The communication was filed.

W. S. Kelly of Berkeley sent a communication offering to deliver weekly lectures advertising the county, at the Ferry Building, San Francisco, using slides and moving pictures, for $25 to $50 per month. The communication was accepted and filed for future reference.

Henry Schuldt of Halfmoon Bay sent a communication to the board stating that he is an old soldier and is desirous of securing a license to sell beer at wholesale. His formal application which is under consideration will be acted upon at the November meeting.

The following resolution presented by the chairman, was adopted on motion of Francis, seconded by Blackburn:

"Resolved, that in view of the amount of traffic passing over Crystal Springs road from the coast to the bayside of the county, the Board of Trustees of the City of Hillsborough be requested to lay upon so much of such road as is within its corporate limits, a good and substantial asphaltic macadam pavement of sufficient width and quality to accommodate said traffic.

"And the Board of Trustees of said municipality is hereby authorized and empowered to devote to said construction sufficient moneys out of the voluntary contributions promised by land owners of the City of Hillsborough to the County of San Mateo for the Second Road District fund (under an agreement by them with said county, filed with the County Clerk thereof, March 28th, 1910,) as may be necessary and sufficient to perform such work, including all expenses properly incidental thereto.

"The leave hereby granted to apply said voluntary contributions to the construction of said road is conditioned, however, upon the removal by the said Board of Trustees of the existing teaming restrictions as to width of tires, weight of loads, and weather conditions, now in force under Ordinances numbered 22, 25 and 26 of the City of Hillsborough, so far as the same may apply to the portion of said Crystal Springs road within said municipality, to the end that said road may henceforth be used under no greater teaming restrictions than govern the use of county highways; and further conditions that the City of Hillsborough shall maintain said roadway throughout the municipality after completion, out of its municipal funds, and without further resort to to the voluntary contributions aforesaid.

"Resolved further, that a copy of this resolution be transmitted to the said Board of Trustees of the City of Hillsborough."

Chairman Brown stated that the Hillsborough authorities had agreed to construct the Crystal Springs road as set forth in the resolution.

Casey was given permission to purchase 200 feet of 12-inch culvert pipe for use on his roads, on motion of Blackburn, seconded by Francis.

On motion of MacBain, seconded by Blackburn, Chairman Brown was authorized to enter into contract for the paving of Walnut avenue in his district at a cost not to exceed $600.

Bids were opened as follows for the construction of a joint concrete bridge on the Middlefield road across the San Francisquito creek at Palo Alto:

Harry B. Morey, $9873.
W. H. Otto, $7846.
Tieslau Bros., $8635.
Adolph Tiechert, $9992.
A. Matson, $9124.

On motion of MacBain, seconded by Casey, the bids were submitted to the Palo Alto city council for action by that body.

The following bids were received for supplies for the Surveyor's office, as advertised:

A. Leitz Co., $1092.30.
Frederick Post Co., $1142.45.
A. D. Walsh Co., $1165.50.

The bids were referred to Surveyor Neuman to report on at the afternoon session.

District Attorney Swart presented a written opinion on the incorporation of San Bruno, holding that the petition was insufficient in that it did not definitely describe the boundaries of the proposed incorporation. He advised that it would be inadvisable and disadvantageous to the petitioners to proceed with the incorporation under the circumstances.

Mr. Swart suggested that if the incorporators were not satisfied they might transfer the matter to the Superior Court through the medium of writ of mandamus.

The opinion was ordered filed and the petition denied on motion of MacBain, seconded by Francis.

MacBain presented plans for two rails for the front steps of the courthouse, leading from the upper columns to the bottom, which could be installed at the following prices:

All bronze, $370.
All brass, $340.
All iron, plated, $250.

On motion of MacBain, seconded by Blackburn, it was ordered that two bronze rails be installed by the Courthouse committee.

On motion of Casey, seconded by Francis, it was ordered that the Pacific Gas and Electric Company proceed to make changes in the San Bruno lighting district in accordance with the petition recently presented to the board.

W. K. Feltcher, W. J. Murray and Surveyor J. V. Neuman, the viewers appointed on August 4th to view and lay out two roads in the Third district, petitioned for by Edw. F. Fitzpatrick and others, reported in substance as follows:

The first of said roads commences at the foot of Woodside grade and generally parallels same to a point in the summit of said grade in front of the Haaker residence. It passes through the lands of the Blinn Estate Company, the Peninsula Foothills Land Company, Hansine P. Haaker and N. A. Andreen. Its distance is 6370 feet and the estimated cost of the construction of the proposed road, including fencing, grading and paving with an asphaltic wearing surface on a 5-inch concrete base would be $22,333.

The second of said roads commences at a point about midway in the survey of the first described road, in what is known as the "McGarvey gulch" and runs in a general westerly direction through the lands of the Peninsula Foothills Land Company, the lands of Rixford and the lands of Edw. F. Fitzpatrick, joining the Canyada road.

The length of the second road is 4678.74 feet, and its estimated cost, including fencing, grading and paving with 6 inches of macadam is $8867.

The viewers estimate that the cost of the right of way for both roads is as follows:

Blinn estate, donated. Peninsula Foothills Land Company, donated. Hansine Haaker, land $900; damages $600; owner claims damages to the amount of $3000. N. A. Andreen, land $100; damages $100; owner asks $1000. E. H. Rixford, land 250; no damages. Edw. Fitzpatrick, donated.

The report of the viewers was continued until November 3d and the clerk was directed to give notice to the non-contesting landowners.

The returns of the election held at Moss Beach September 23 for the formation of a highway lighting district were canvassed, showing that 62 votes were cast in favor of the proposition and 8 against.

A further hearing on the matter will be heard at an adjourned meeting on the 17th instant when the result of the election will be officially declared.

Surveyor Neuman reported in favor of the bid of the A. D. Walsh Company for the supplies of his office and the same was accepted on motion of MacBain, seconded by Casey.

A discussion was had as to the advisability of changing the route of the county highway through South San Francisco. The matter will be further considered at the next meeting, October 17th.

District Attorney Swart asked that the proprietor of the Bungalow at Millbrae and of Boicoff's saloon at Lomita Park be cited to appear and show cause why their licenses should not be forfeited for violations of the liquor ordinance.

It was so ordered on motion of Francis, seconded by Blackburn.

The surveyor presented plans for a continuation of the paving of ElCamino Real through Redwood City. The plans provde for a roadway twenty-four feet wide with five inches of concrete and a top dressing of asphaltum of one inch in thickness. The clerk was directed to advertise for proposals for doing the work.

R. F. Chilcott presented a map of Stanford Park near Menlo Park which was accepted by resolution on motion of Blackburn, seconded by Brown, the streets being rejected.

Adjourned to Friday, October 17.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

Colonel Goethals, through whose genius and ability the Panama canal was made possible, is a presidential possibility. He is a Republican in politics and it would not surprise us if he were the standard bearer of his party in 1916.

SHOULD ACT PROMPTLY.

If for no other reason than a matter of economy for themselves, owners of property fronting upon the County Road should lose no time in formulating some plan for cooperation with the supervisors in the permanent improvement of that thoroughfare. Unquestionably, whoever receives the contract for the portion of the work to be done by the county can offer better terms for the remainder of the work, if done at the same time than could be otherwise secured. It is also a well known fact that the doing of work of this character by private contract avoids much extra expense involved in compliance with legal requirements.

Of course to do this will require the unanimous action of owners of property, but this should not be difficult to obtain. That this work must eventually be done, and this at the cost of the abutting property, there can be no question. And in all justice there should be no hesitancy on the part of any owner of property. Considering the prominence of the street and the heavy traffic it must bear, the character of improvement—the best yet devised—is none too good. While the class of improvement is admittedly somewhat more expensive than that required of other residential streets of the city, under existing conditions those who will be called upon to bear the expense have no fault to find. Because of the extensive work of the county a share of the cost of which must be borne by every property owner of the city in the payment of the bonds, but a small portion of work remains to be done at private expense.

That the work must be done in the immediate future there can be no question. Certainly the city council will insist that this main thoroughfare must be improved permanently for its entire width, no other course could reasonably be considered. Unless it is made evident that the work is to be done voluntarily by those interested, in all reason it is to be expected that that the city officials will take immediate steps to compell the improvement.

COUNTY TEACHERS HOLD MEETING ON COAST SIDE

This year, for the first time, the Teachers' Institute was convened in Halfmoon Bay. The place not being on the main line of travel, not a few of the teachers feared it would be troublesome going there and unpleasant remaining, but how agreeably surprised all of them were! Never before did they have such pleasant traveling and in no other place were they so generously and appropriately entertained. The whole session proved to be a period of recreation and instruction.

On Sunday evening they were warmly welcomed to the homes and hotels. Young men with their own automobiles gladly carried them to the appointed places. Not one was left to seek alone

On Monday night there was a reception and dance at I. D. E. S. hall and again the young men were so numerous and so considerate that all the teachers who enjoy dancing found no lack of good partners. It was really a famous reception and need it be said that more than one young man was charmed with the beauty and graciousness of our teachers. On Tuesday afternoon all the autos were on hand, once more, and all the teachers were taken to Princeton where a genuine barbecue was served and the tender, savory meat was eaten with an unusual relish. That same evening there was an entertainment, consisting of singing, visiting and storytelling, in the I. D. E. S. hall, which was filled with the teachers and their friends. After the program was ended the generous young men took various parties for delightful rides over romantic roads. The pleasures were so enjoyable that they can never be forgotten.

The work of the Institute was not neglected in any respect. The first session took place in the assembly hall of the grammar school. Dr. C. L. Morgan of Halfmoon Bay made the speech of welcome, which was responded to by W. J. Savage of Colma. Superintendant Roy W. Cloud, presiding, spoke to the teachers in his friendly way. During the three days the following instructors lectured before the teachers: Dr. F. V. Fisher, the official lecturer of the Panama-Pacific exposition; W. G. Hartranft, ex-superintendent of the schools of Seattle; Arthur H. Chamberlain, editor of the "Sierra Educational News;" Miss Clara D. Barnheisel, of Palo Alto, and Prof. Lewis M. Terman, of the educational department of Stanford University. The secretaries were Mrs. Zoe Thorpe and Miss Pearle D. Graham. The following contributed many sweet songs: Mr. O. M. Carrington, Miss Gertrude Beeger, Miss Vera Emerson, Miss Grace Hobler, Miss Harriet Merrill, Miss K. Wolfenden, Miss Marian Daley and Miss R. R. Clifford.

The most useful thoughts emphasized during the session were that, as a rule, no children should be kept in at recess or after school; that no home work should be required; that teachers should sympathize with and try to be friendly with the children; thal it is eminently proper to indulge in merriment when there is an occasion for it; that the brightest children should be given the greatest encouragement, because the advancement of the world's work depends upon them; that you must love and trust children in order that they may reciprocate; that corporal punishment should be resorted to only upon rare occasions, but that it is decidedly preferable to everlasting scolding; that each teacher must contribute one dollar monthly of his or her salary, from the beginning of next January, toward the pension fund, from which $500 a year will be paid to teachers who have served thirty years; that teachers who become incapaciated before the end of the term will receive as many thirtieths of $500 a year as he or she has taught years; that discrete instruction should be given to strengthen the will against the learning of low, immoral and health destroying habits; and that the next institute will be held in San Jose, in Santa Cruz among the Big Trees, or in San Mateo. Superintendent Roy W. Cloud was praised on all sides for the excellent program which he had arranged and for the considerate way in which he treated all. There was not a more popular person present.

The local committee of arrangements, Prof. A. M. Croop, Dr. C. L. Morgan and Alvin Hatch, received and merited a great many compliments for the work they did so well.

NEWS GATHERED FROM THE COUNTY

Interesting Notes Picked Up By Hustling Reporters in the Country Districts.

SOUTH SAN FRANCISCO.

Reports which seem to have a firm foundation, indicate that South San Francisco has secured the location of another important manufacturing industry in its midst. So far the promoters have refused to make public either the name of the concern or the nature of the business, but it is positively stated that with the opening of spring work will be commenced on a plant which will cost $100,000.

Workmen have practically completed the new residence of P. Fourrie on Baden avenue.

Mrs. H. B Wood, who has been seriously ill at her home for some time, is reported to be on the road to recovery.

Rev. C. N. Bertels, the new pastor of the Methodist church, has occupied one of the Walker cottages on Juniper avenue.

SAN BRUNO NOTES.

Fire which started about 1:30 Thursday afternoon entirely destroyed the residence of Julius Gron in the third addition. The fire, which resulted from the explosion of a coal oil stove, started in the kitchen, the flames spreading so rapidly to other portions of the house that but a very small portion of the furniture could be saved. When it was found that the flames could not be controlled by the local fire fighters, telephone requests for assistance were sent to the fire departments of San Mateo and Hillsborough, both of which responded promptly. The loss is estimated at $1600, with an insurance of but $400.

Dr. Bhon and wife and Mrs. H. Green and nurse have gone to San Pedro for a short vacation.

Mr Benjamin of Lomita Park has just completed a number of extensive improvements to his residence.

Mr. Ausberger of the third addition sustained a painful injury to his foot last Saturday. While engaged in unloading some ice from a wagon, one of the heavy cakes slipped and fell on the foot. While painful,, the injury will leave no serious results.

Mr. Steinbrock is making a number of improvements to his property in the fourth addition.

At mass meeting assembled the citizens of San Bruno met Wednesday evening, October 8, 1913 for the purpose of hearing a report or reports of the progress thus far encountered toward a petition for the incorporation of the City of San Bruno, which was legally presented before the Board of Supervisors May 26th, 1913, in accordance to Act No. 2343 of the General Laws of California, Subdivision 2. The meeting is more significant than is apt to appear to the casual observer of its proceedings. It will mean years of effort to overcome the lackadaisical policy of drift which the majority of citizens desire to check. It signifies a growth of urban consciousness, an awakening sense of the fact that there must be a planned force, which, if left unresisted, will make a Babylon of our town, and cause a decadence of urban civilization. Unhappily we can not make our town only a workshop It must also be our living place. Wherefore it is in the highest degree important that we should cultivate an environment which will foster and steady better citizenship. Left to itself a town will grow to be ugly physically, socially and morally, and those who pass their lives in such towns will in varying degree partake of these characteristics, for the strongest of us is not quite impervious to the influences of environment. It is true of every section of the county, and it is true of small towns as of large cities, that the people are becoming every year more interested in improving the physical, social, ethical, and esthetical conditions of the communities in which they live. Indeed, at the present rate of progress it will not be long until there will be no more certain sign of a town's decadence than the lack of a movement to beautify it. The inevitable inference will be that such a town or city either has no hope in its future, or that it is made up overwhelmingly of people who have no concern higher than that of fattening themselves pretty much as swine do; with no aspirations better than that of making money. Actuated by these motives, and desiring to ascent to a higher scale of civilization, and surround ourselves and families with all that is good and ennobling to humanity, a petition was presented before the Board of Supervisors, May 26th, 1913, which was no sooner presented than a stronger force of unseen and hiding politicians and money barons employed astute lawyers to appear and attack with all the vehemence possible the right of the people to breathe the air laden with love, congeniality, righteousness and contentment which they would evolve and fashion in due course of time under modern conditions, if left alone.

Therefore the people feel that they have been discriminated against and with acclaim at mass meeting endorse the following resolutions:

Whereas: Jas. V. Neuman, County Surveyor, was denied a hearing in order that he might explain the correctness of the boundary line and description, which he holds is correct.

Whereas: We have implicit confidence in Jas. V. Neuman, County Surveyor. His integrity cannot be questioned, and we further hold that the county is fortunate in having on its staff of officers a competent and courteous surveyor.

Wheress: We have faith in the Board of Supervisors, and believe that ultimately for the best interests of the people of San Bruno, and for the county's good, the petition will be granted.

Whereas: In the event of further and unnecessary harrassing an appeal will be taken to all of the First Township to effectively and positively put an end to the money bags regime in this township.

Therefore, be it resolved, that a copy of this resolution be sent to all of the newspapers of the county, as well as city papers of San Francisco, Cal.

Wm. J. Flynn, president. J. J. Hearne, secretary.

SAN MATEO AND BURLINGAME.

While praticing at a target with a small caliber rifle Wednesday afternoon, Leo Smith, a young lad of San Mateo accidentally shot Marie Costa, the 8 year old daughter of Joe Costa. The little girl had been at play near the target and was struck by a stray bullet in the back of the head. The injury inflicted is not regarded as serious.

Plans are already being prepared for the construction of new buildings for the site of last Friday night's fire at San Mateo. The fire, which destroyed four building, was the most serious the fireman have had to contend with in some time and necessitated a call for assistance from the fire departments of Burlingame and Hillsborough.

The city council of Burlingame has adopted an ordinance providing for the appointment of a board of health. The new board, which is appointive, is to consist of five members, two of whom must be practicing physicians.

The new Burlingame Commercial Club has completed its organization with the election of S. D. Merk as president; Porter E. Lamb, vice president; H. A. Cahalan, sceretary; C. S. Cary, treasurer. The club is arranging to secure a site near the railway station for the installation of an outdoor swimming pool and handball and tennis courts.

Ligouri, acting as toastmaster, the following responded when called upon: Grand Chief Ranger Klinger, Grand Secretary Joseph Reboli, editor Foresters' Review Jacob Label, Judge Barnett, J. J. Read, Dr. J. L. Boss, A. D. Walsh and many others.

CITY COUNCIL HOLDS BRIEF BUSINESS MEETING

G. L. Collins is Appointed to Vacant Place as Night Police Officer.

The old adage that "a short horse is soon curried" was given apt illustration at the regular session of the city council last Monday evening. With but little to do, the trustees lost no time in unnecessary discussion and were enabled to return to their homes at an hour which must have been somewhat of a surprise to their families. All of the members of the council were present with the exception of Trustee Deleau, who was in attendance at the annual meeting of the League of California Municipalities at Venice as the official representative of this city.

The resignation of H. G. Mansfield as night police officer was accepted, to take effect as of the 1st of the present month. In accepting the resignation, the trustees expressed regret at the loss of the services of the officer, each expressing satisfaction at the manner in which he had attended to his duties. Trustee Sampson, chairman of the committee of health and police, stated that the resignation had been handed to him last week, with a request from Mr. Mansfield that he be relieved from duty immediately, and that he had temporarily appointed C. L. Collins to the vacant place. The action of Trustee Sampson was approved by the council and the temporary appointment was made permanent.

City Clerk Plump called attention to a complaint which had been filed with him that a building had been so placed on lower Main street to interfere with the approach to one of the fire hydrants. Marshal Coleman was instructed to see that the obstruction was removed without delay.

Trustee Hynding was requested to attend the Watsonville apple show, which is being held this week, as the official representative of the city, the action taken being in response to an invitation from hte city officials of Watsonville.

Trustee Sampson suggested that several of the fire houses were in need of a coat of paint. This brought from Chairman Merrill the suggestion that with the completion of the remodeling of the street lighting system the poles of the city be given some distinctive color, and after some discussion it was decided to await the completion of this work when the entire job can be more advantageously let to one contractor.

Trustee Hynding was given authority to secure necessary dirt for filling the grounds surrounding the city hall, with a view to their adornment with shrubbery during the coming spring.

Trustee Hahir called attention to the fact that the railroad crossing at Brewster and Arguello streets was in decidedly bad repair, and was liable to cause much inconvenience to children attending the schools during the winter. At his suggestion the railway management was requested to make the necessary repairs.

Some little discusion was given the plans for the improvement of the County road within the limits of this city, plans for which it was reported had been adopted by the county supervisors during the day. The sentiment of the council unanimously favored the improvement of the roadway for its entire width with the concrete base and asphalt surface which had been adopted for the width of twenty-four feet which the county will improve. It was also made evident that this was the desire of the owners of property fronting this highway. No plan however, could be suggested by which the city and county could work in conjunction and no definite action was taken.

New Probate Applications.

Rosa Quadro has applied in the Superior Court for letters of administtration upon the estate of her husband, John Quadro, who was drowned at Pescadero on September 29. The estate consists of four parcels of real estate in and near Pescadero valued at about $10,000 and personal property consisting of 11 head of horses, 8 head of cattle and farming utensils valued at $1500. The entire value of the estate does not exceed the sum of $13,000. The heirs at law are the petitioner, wife of the deceased and eight children, whose ages range from one to 20 years. Franklin Swart is the attorney for petitioner.

New Actions in Superior Court.

Mary Silva Costa has brought suit in the Superior Court against her daughter-in-law, Katherine Silva, to have the marriage of defendant and Albert Silva, son of plaintiff, annulled and set aside on the groun that young Silva was not of legal age to enter the marriage state when he was married on December 2, 1911. The complaint alleges that the boy will not be 21 until April 12, 1914. Mrs. Costa was divorced from her former husband in 1911 and at that time the court awarded the custody of Albert to his mother. She has since married. All parties to the action reside at San Mateo.

Injured Workman Gets Damages.

A jury in the case of Frank H. Poor against the W. P. Fuller Company brought in a verdict Thursday afternoon in favor of the plaintiff for $3000. The jury was not out more than fifteen minutes. The case began in the Suprior Court before Judge Buck Wednesday morning. John D. Willard and J. W. Colebred ably presented the case for Poor, while the corporation was represented by Attorney Benjamin of San Francisco. On July 1, 1912, Frank H. Poor was employed at the W. P. Fuller Paint Works at South San Francisco and was seriously injured by a falling box, it is alleged, through the carelessness of the company. A chute was located on the second floor of the company's building through which boxes weighing twenty-five pounds were sent to the first floor. The chute was a rickety affair and unsafe. One of the boxes on its descent struck Poor, inflicting severe injuries. He was laid up for several months and may never regain the use of his right arm. Through his attorneys he recently brought suit for damages in the sum of $10,000. At the trial much expert testimony was presented on both sides. Willard's argument to the jury was masterly and eloquent. Eleven of the jury was for a verdict. On the first ballot various sums were voted for ranging from $2000 to $10,000. Finally the sum of $3000 was agreed upon and a verdict was returned accordingly after fifteen minutes deliberation.

Must File Regular Claim.

M. J. Hynes, guardian of the person and estate of Loren Coburn, an incompetent person, appeared in the Superior Court yesterday afternoon with his attorneys in response to a citation issued some time ago requiring him to appear and show cause why he should not pay Archer Kincaid $15,000 attorney fees for services rendered the aged capitalist and extending over five years. The attorneys for Mr. Hynes objected to the procedure, raising the point that the court had no jurisdiction. No objection was made to the claim. The court agreed with the counsel and suggested that a claim be filed with the guardian who could, if he saw fit, reject it and Mr. Kincaid could then sue on the bill and in that way the matter might be properly determined by the court. Mr. Kincaid also agreed that the suggestion was a good one and that it would be the proper procedure. Therefore the citation was dismissed. Mr. Kincaid will at once file a claim with the guardian. My Hynes promised to expedite matters so that the case could be determined in a

HEALTH

Better be healthy than rich. Better feel like a fighting cock than a whipped dog. Health is a bankable asset. Health enables you to do things. To accomplish. To win. To succeed.

Ill health is a weakness. There's a remedy. Nature has provided it. Down deep in her mighty caldron, Nature, the great physician, is compounding Witter Water, a sure and certain alleviator for diseases of the stomach, liver, kidneys and bladder.

Nature works slowly. So does Witter Water. It requires a good time to get results but when its work is done, it is well done. It is permanent.
